

Northside Riding Club

Brighton Saddleworld 2010 Pointscore Competition

2010 NRC Horse & Rider Pointscore Rules

- Riders do not have to nominate to be part of the Northside Riding Club Point Score Competition.
- Points will be allocated from competition entry & results sheets. No other verification is required.
- Riders must sign on at the clubhouse for events without pre entry for their attendance to count to the pointscore (eg Open Days, gymkhanas). One entry point to that phase will be allocated for attendance.
- Points will be allocated to horse & rider combinations, not riders separately.
- Only NRC competitions and clinics are eligible for points.
- Points will only be allocated to NRC members who place in a competition, if no NRC member places in an event there will be no points awarded except for entry.
- "Pairs" and "Team" events in any phase will be counted towards point score.
- No place points will be allocated for placings in classes at events where unlimited entries are permitted such as Hacking or Mounted Games. All competitors will receive an entry point if they have signed on at the club house.
- CHAMPION and SUPREME are equivalent to 1ST; RESERVE is equivalent to 2ND.
- To be eligible for the Pointscore, riders must attend clinics or competitions from three different phases. The phases are Dressage, Hacking, Eventing, Show Jumping, Mounted Games and Social (which includes Thunderbirds and Working Bees. Christmas Party & Awards Night excluded). Riders have all year to attend three phases.
- To be eligible for the Pointscore, riders must volunteer for a minimum of two half days (or equivalent) per year, which is a condition of NRC membership. Riders have all year to complete volunteer work.
- In the event of an equality of points, the horse and rider who have competed in the most phases will be given the higher placing.
- If both combinations have competed in the same number of phases, the combination who has competed in the fewest competitions will be given the higher placing.
- The winner of the Pointscore will be the horse and rider combination with the most points won throughout the year, after the any adjustments required by the above rules have been made.
